AFRO-ASIA FINTECH FESTIVAL

 KENYA SCHOOL OF MONETARY STUDIES

1.00pm

Topic:

The Future of Banking - how can we create more fruitful partnerships between banks and fintech start-ups. To make the workshop more interactive and to better engage our targeted audience of fintech start-ups, we intend to leverage on Design Thinking approach to capture experiences of start-ups working with banks and discuss solutions to the problems they faced.

Objective: Gain insight into FinTech start-up challenges as a vendor to banks by leveraging partnerships through design thinking

Panellists

- Alex Manson, Global Head SC Ventures
- Dr Bitange Ndemo, Influencer/NED Board Member Google/Safaricom
- Edward Ndichu, CEO Opera

For Financial Institutions/ Banks

If you are a:

- **business lead**, you will find out how your company can tap APIX to leapfrog your competitors in digital innovation cheaply and seamlessly;
- **technical lead**, you will learn how to navigate the user-friendly APIX platform to browse FinTechs and their solutions, build prototypes and deploy new services cheaply and rapidly to the market.

For FinTechs

- Learn about how you can save on marketing and outreach costs by showcasing your company and solution(s) to a global audience of financial institutions across multiple jurisdictions including Kenya

The workshop will be presented in two parts: an introduction to the partners hips model by JUMO followed by a panel discussion that brings together players in the agritech, mobility and financial services.

Panellists

- Peris Bosire, CEO & Co-Founder, FarmDrive
- Alfie Pearce-Higgins, CFO, SafeBoda
- Caine Wanjau, CTO, Twiga Foods

2.00pm – 3.00pm

- Show casing experience by selected finalists and participants from the Global FinTech Hackcelerator programmes.
- Official Launch of the Afro-Asia FinTech Hackathon

spurring on new forms of businesses and sources of revenue. However, the regulation of technology and businesses based on these technologies in Africa is diverse, with varying degrees of compliance requirements. This creates an uncertain legal environment for early adopters, investors, developers and acquisitions and adds a layer of complexity to be managed. This talk aims to look at these legal trends at a macro level, so that the driving forces behind them and their impact on tech deals in Africa can be understood.

Presenters:

- Wildu du Plessis, Partner, Johannesburg
- Janet MacKenzie, Partner, Johannesburg
- Darryl Bernstein, Partner, Johannesburg
- Ashlin Perumall, Senior Associate, Johannesburg

Format:

Short opening remarks on context followed by panel comments and open discussion

Topic:

Strategies for achieving mass-market adoption of digital micro-pensions by non-salaried workers in Africa: Role for innovative retirement literacy, behavioural interventions, and bundling insurance and emergency credit with micro-pensions

(ii) improve customer experience. As users consent to share their personal financial data, banking institutions can distribute information via open application programming interfaces, or APIs for short, allowing third parties to leverage this data and create personalized services with a seamless user experience. The discussions will revolve around

Pros and Cons of Opening banking; benefits derived from open banking; and the journey towards open banking in Africa and Kenya – future roadmap

Panelists:

- Johnson Ondicho, Kenya Commercial Bank
- Abel Masai (Kocela) Munyutu Waigi (Mwaloni)
